

**Family and Friends of the
Stone Church and Cemetery**

The structure of the Stone Church is in urgent need of mason work. This church was built in 1888 and has thick fieldstone walls. The front walls (northeast corner) have displayed small cracks over recent years, but in this past year these cracks have grown to more than 6” wide. We must immediately hire a contractor and a mason to repair the damage.

The Stone Church committee is dedicated to preserving this heritage building that our forefathers built. We realize that this is a large financial undertaking. ***We cannot do this without your support.*** Our goal is to begin working on this project this spring to preserve this beautiful building for future generations.

At this time we would like to thank all those who volunteer each year to maintain the church and grounds of the cemetery. We also ***thank*** those who financially contribute on a regular basis and those who answer our call for help today. To view photos of these cracks you can visit the web page at www.stonechurchcemetery.ca

Please complete the enclosed pledge form and return with your donation. Make your cheques payable to: ***The RM of Emerald (C/O Mrs. Judy Luciuk, Box 204, Wishart, SK S0A 4R0)*** with memo to ***“Stone Church Restoration Project”***.

Thank you for your support.

Sincerely,

Cindy Luciuk
